

1:1 Meeting Report

Academic Achievement Committee Meeting
February 25, 2022
9:00 - 10:30 AM

Attendees: Janice Lucchesi, Aaron Clubb, Alicia Coleman, [Steve Ronkowski](#), Sabrina King, Gregory White, Jerrold Washington, [Stephanie Cagadas](#), [Andrea Groeninger](#), Matt Larsen, Andrew Pashea

1. NWEA Growth Analysis

- Winter MAP testing is complete
- CSO and Teaching and Learning will assist schools to identify students and deploy strategies for students in all quartiles.
- Schools were given specific learning resources to use for small group instruction

2. 2021 Employee Workplace Survey

- Great findings regarding supervisors and cultural drivers
- Improvement opportunities are being researched further

3. Student Retention

- LEARN's Data Analytics team is leveraging our historical student data, as well as staffing and public city-level data, to build machine-learning models for analyzing and predicting/forecasting annual retention rates. We are building one model for each school district where LEARN campuses exist to capture the differences between them.
- Next steps include producing even more accurate models and reporting these forecasts.
